

I am writing to urge you to reject the NAB's petition 04-160. I pay a subscription to a company that provides a service to me. I work in Los Angeles and it takes me almost 2 hours to drive each way to and from work. The local news channels give traffic only every 10 minutes. For my commute XM radio provides constant traffic updates so I get traffic when I want it and when I need it. No one should be able to tell me otherwise. If the NAB is upset about this they should step up and offer similar services, other channels etc. and not tell me that I can't pay for a service because it's unfair to them. Like any other business they need to compete or go away.
